THE MHA PROGRAM

- Prepares students for a full range of healthcare administration careers in leadership, planning, marketing, operations and related roles
- Educates students for professional practitioner positions aligned with the rapidly changing healthcare environment
- Meets national standards associated with excellence in graduate education
- Helps advance your career

WHY CSUN?

- Accredited by the Commission on Accreditation of Healthcare Management Education (CAHME), one of just four universities in California that offer an accredited graduate program in health administration
- Full Graduate Program Member in Association of University Programs in Health Administration (AUPHA)
- All-evening program designed for working professionals

Prepare for a career in leadership and management roles in healthcare

Focus on aligning with current healthcare environment needs, such as leadership, critical thinking, science/ analysis, management theory and knowledge, political and community development, and communication

CAREER OPPORTUNITIES

Healthcare is one of America's fastest growing, dynamic and necessary fields. The field offers energetic, creative and enterprising individuals a host of administrative and management options. Career opportunities in hospitals, public health, mental health, managed care systems, insurance companies, and long-term care continue to expand. Health Administration graduates are in an excellent position to be competitive in the healthcare marketplace.
